

**GIBSON D. LEWIS HEALTH SCIENCE LIBRARY
UNIVERSITY OF NORTH TEXAS HEALTH SCIENCE CENTER
VisualDx Mobile App Instructions**

1) Locating VisualDx

Go to the library homepage by clicking [here](#). Choose VisualDx from the database dropdown menu in the center of the page and hit go.

2) Register for a VisualDx Account

In order to use the VisualDx mobile app you will first need to register for a VisualDx account on the website. To do so, click “Get the Mobile App” beneath the search bar and follow the prompts to create your account.

Once you have created an account, sign in to VisualDx using that account information on the top right-hand corner of the screen.

3) Download App from Mobile App Store

Go to your mobile device app store, search for VisualDx and download the app.

Once downloaded, open the app on your mobile device and find the login option. Enter the login information you just created on the website version of VisualDx. Once you enter that login, you will be connected to the UNTHSC subscription. If you are prompted for payment, please check that you are using the correct login information that you create on the website version and try again.

You are now ready to search in both the web version and mobile app. If you run into any issues with the download process, please contact the library at AskALibrarian@unthsc.edu or (817) 735-2070.
